

Holley EFI 1/8-27 NPT Sensor Block P/N 534-35

CONTAINS:

- (1) Holley EFI 1/8-27 NPT Sensor Block
- (4) 1/8-27 NPT Plugs w/ Sealant
- (1) Instruction Sheet

WARNINGS:

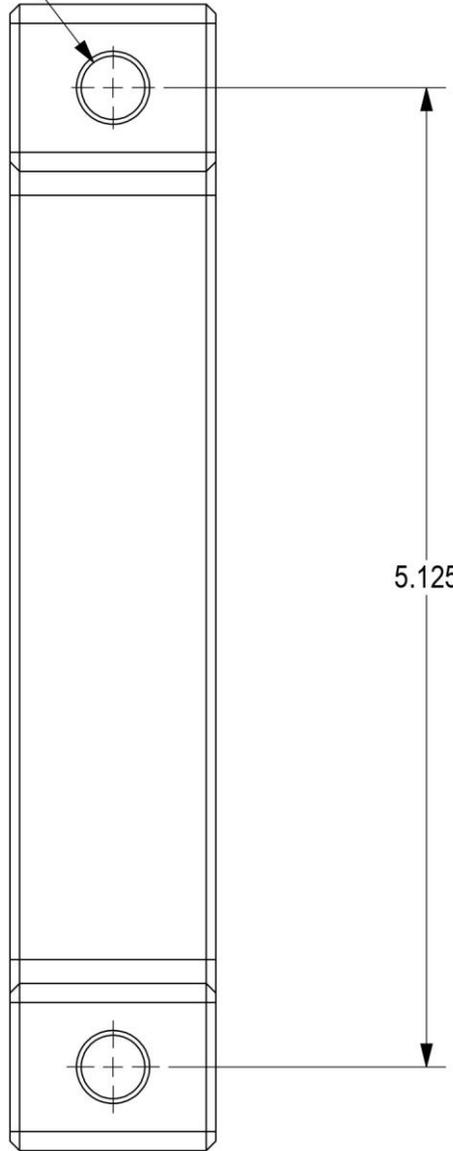

Block to be mounted on a robust surface away from sources of high heat or vibration.
Apply a light coating of thread sealant to NPT threads before installation or leakage will occur.

INSTALLATION INSTRUCTIONS:

1. Choose the proper location to mount the sensor block and use the supplied template to drill the .332" diameter holes (Q Drill).
2. Block can be mounted in one of three orientations as there are four holes that are designed to be used with 5/16" hardware.
3. Mount the plate, screw in your sensors and adapters, and route all your plumbing and wiring.
4. Make sure to plug the unused holes with the supplied 1/8-27 NPT plugs.
