

CHROME OIL FILTERS

When good looks are important, Moroso's Chrome Oil Filters are the way to go! Outside is a triple process chrome plated steel housing that's hand polished and rack nickled before chroming to insure the highest luster possible. Inside is a heat cured, resin impregnated filter element that has been engineered to exceed OEM specifications for filtration efficiency.

ENGINEERED FOR HIGH FILTRATION EFFICIENCY!

With Moroso Chrome Oil Filters, harmful particles are trapped within the high performance filter pleating configuration, resulting in cleaner oil for your engine.

WARNING Prop. 65
 This product contains a chemical known to the state of California to cause cancer, birth defects, or reproductive harm.

PART #	DESCRIPTION
22300	Chrome Oil Filter, Chevy type, Short Design (4-9/32" high), 13/16" -16UNF thread
22305	Chrome Oil Filter, GM LS Series, 1997-2006, 13/16" -16UNF thread
22320	Chrome Oil Filter, Chevy type, Long Design (5-1/4" high), 13/16" -16UNF thread
22400	Chrome Oil Filter, Ford/Chrysler type, Long Design (5-1/4" high), 3/4" -16UNF thread

RACING OIL FILTERS

After many years of designing and testing racing oil systems and related components, we've determined what's most important to oil filtration. Many filter manufacturers stress the importance of filtering the smallest particles out of your engine's oil, with references to "micron ratings" of 10 or less for a filter's efficiency.

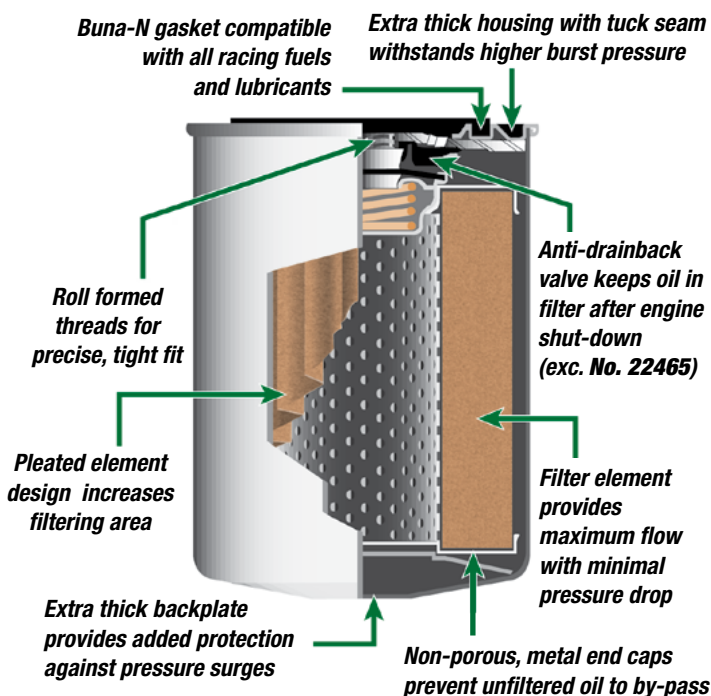

With the help of research performed by filtration technology experts, Moroso engineers have determined that particles smaller than 20 microns in diameter are not large enough to produce engine wear. Furthermore, we've found that filters with extremely low micron ratings create an excessive pressure drop across the filter. They can be so restrictive that the filter by-pass valve can open. With the by-pass valve open, unknown to you—NO FILTRATION will occur!

To maximize filter performance, Moroso Racing Oil Filters have a rating of 27 microns, which produces a maximum initial restriction of only 2.5 psi when tested to SAE J806! The result is less pressure drop, more flow, less oil by-pass and maximum filtration performance important in severe racing conditions.

ENGINEERED FOR HIGH FILTRATION EFFICIENCY!

Moroso's Oil Filter design insures full filtration with minimal restriction under the most severe operating conditions!

PART #	DESCRIPTION
22459	Racing Oil Filter, Chevy and others, 1 ³ / ₁₆ " -16 UNF thread, short design (4- ⁹ / ₃₂ " high), burst strength: 350 psi (max.)
22460	Racing Oil Filter, Chevy and others, 1 ³ / ₁₆ " -16 UNF thread, long design (5- ¹ / ₄ " high), burst strength: 350 psi (max.)
22461	Racing Oil Filter, Chevy and others where space allows, 2 quart capacity, 1 ³ / ₁₆ " -16 UNF thread, extra long design (8" high), burst strength: 350 psi (max.)
22462	Racing Oil Filter, GM LS Series, 1997-2006 with 1 ³ / ₁₆ " -16 UNF thread, short design (3- ¹ / ₂ " high), burst strength: 300 psi (max.), 140 sq. in. of filter area
22463	Racing Oil Filter, Ford 4.6/5.4, GM LS Series 2007 & up, 22 mm-1.5 thread, short design (3- ¹ / ₂ " high), burst strength: 280 psi (max.) 170 sq. in. of filter area
22470	Racing Oil Filter, Ford and Chrysler, 3/4" -16 UNF thread, long design (5- ¹ / ₄ " high), burst strength: 500 psi (max.)
